

PRESS RELEASE

OW2 announces OW2 Webinars its New Interactive Training Channel to the Open Source Community at Large

OW2 Webinars offer interactive live and replay sessions to support the promotion of its open source projects, sharing innovative projects, concepts .

Solutions Linux, Paris, May 14, 2014 – OW2, the global community for open source infrastructure software, announces OW2 Webinars. This rich content platform offers training content and interactive sessions to support the promotion of OW2 projects and the open-source results of publicly financed collaborative projects. OW2 Webinars are interactive sessions, developers can ask technical questions during presentations and demonstrations and obtain immediate answers.

OW2 Webinar Series provides :

- New projects, concepts, and technologies detailed and demonstrated,
- Short and productivity-oriented tutorials, including hands-on sessions, and use cases,
- Technical support for developers and integrators who want to become webinar leaders.

"OW2 Webinars are a quick and efficient way to share open source knowledge with IT project managers." says OW2 CEO Cedric Thomas "Interactive sessions are extremely beneficial for developers and project leaders." he adds.

OW2 Webinars scheduled in May 2014, include presentations and demonstrations of the following open source and open cloud innovative technologies :

- **erOCCI**, a standard, scalable REST framework and the first generic implementation of OCCI, May 15th, 10:00am.
- **DocDoku**, a robust PLM (Product LifeCycle Management) solution to manage processes, data and documents of products and services from a web browser, May 22, 10:00am
- **CLIF**, an open load testing platform for performane testing, May 28, 10:00am.

Online registration is open and free of charge at : www.ow2.org/Webinars/

OW2 Webinar replays will be available on the same page.

About

OW2

OW2 is an independent industry community dedicated to developing open source code infrastructure (middleware and generic applications) and to fostering a vibrant community and business ecosystem. The OW2 Consortium hosts some one hundred technology projects, including ASM, Bonita, CLIF, CompatibleOne, CONTRAIL, Emerginov, eXoPlatform, DocDoku, JOnAS, JORAM, Nanoko, Petals ESB, OpenCloudware, ProActive, Sirocco, Spagic, SpagoBI, Talend Open Studio, WebLab, XLcloud and XWiki.
