

The OW2 Open Source Software Community Announces OW2con'14 Best Project Awards

erOCCI, LemonLDAP::NG, SpagoBI and Talend MDM are the Four Winners of OW2con'14 Best Project Awards.

Paris, November 10, 2014 — OW2, the global community for open source infrastructure software, announces the winners of OW2con'14 Best Project Awards. Organized for the third time this year, the OW2con Best Project Awards recognize OW2 projects for their outstanding contribution in four categories: innovation, community development, market performance and the Technology Council Special Prize. The award ceremony took place on November 6th, 2014, during OW2con'14 conference at Orange Labs "Innovation Gardens", Issy-Les-Moulineaux, near Paris.

All OW2 projects were invited to submit to the award, in one of the proposed categories (Market Award; Innovation Award; Community Award; Technology Council Special Prize). Winners have been selected by a panel of judges consisting of members and project leaders of the OW2 Technology Council and the OW2 Management Office.

The winners of the OW2con'14 Best Project Awards are:

- **Innovation Award:** [erOCCI](#) (Jean Parpaillon, Co-Founder & CTO of Lizenn)
OW2 erOCCI is an erlang framework for building REST APIs. It implements the OCCi standard for describing the API. Networking and backend are managed through pluggable modules.
- **Community Award:** [LemonLDAP::NG](#) (Clément Oudot, LinID Manager at Linagora)
OW2 LemonLDAP::NG provides SSO to Web based applications. The main program is an Apache Handler, acting like a reverse proxy for protected applications. LemonLDAP::NG provides strong access control through access rules based on regular expressions.
- **Market Award:** [SpagoBI](#) (Stefano Scamuzzo, IT Solution Architect at Engineering Ingegneria Informatica)
SpagoBI is the 100% open source, complete and flexible Business Intelligence suite. Thanks to its wide offering of analytical tools and to its new and intuitive user interface, SpagoBI supports day-to-day and strategic business, both at the decision-making and operational level.
- **Technology Council Special Prize:** [Talend Master Data Management \(MDM\)](#) (Award presented to Talend CTO Cedric Carbone). The Technology Council wanted to recognize the long-term contribution of the project to the OW2 community and the high ethics of Talend company in running a profitable business while enforcing clear open source best practices.

About OW2

OW2 is an independent industry community dedicated to developing open source code infrastructure (middleware and generic applications) and to fostering a vibrant community and business ecosystem. The OW2 Consortium hosts some one hundred technology projects, including ASM, Bonita, CLIF, CompatibleOne, CONTRAIL, Emerginov, eXoPlatform, DocDoku, JOnAS, JORAM, Nanoko, Petals ESB, OpenCloudware, ProActive, Sirocco, Spagic, SpagoBI, Talend Open Studio, WebLab, XLcloud and XWiki. Visit the OW2 website: www.ow2.org.
