

Press release FOR IMMEDIATE RELEASE

OW2 unveils the program of the Open Cloud Forum by OW2 and Open Cloud Park at Cloud Expo Europe, March 11-12 in London

For the first time at Cloud Expo Europe, a special area and conference track is dedicated to the latest trends in Open Cloud technologies.

Paris, France, March 4, 2015 - OW2, the global community for open source infrastructure software and application platforms announces the program of its third Open Cloud Forum by OW2, that will be part of the Open Cloud Park conference program at Cloud Expo Europe in London.

The Open Cloud Forum by OW2 Series are events dedicated to promoting open source cloud projects and interoperability between open standard-based cloud solutions. As Educational Sponsor of Cloud Expo Europe 2015, OW2 contributes to the program of the Open Cloud Park.

Leading IaaS platforms OpenStack and OpenNebula and their commercial partners will be represented in the Open Cloud Park, along with open cloud technologies developed by OW2 Community members and European collaborative research projects.

OpenStack Foundation partners will present their latest developments, including new software from Canonical, StratoScale, Datacentred, Bluebox, Siaras, Red Hat, Plumgrid and MPSTOR.

OpenNebula will also be represented by several members and partners, including: vOneCloud, NodeWeaver and VIAPPS.

The OW2 community will showcase open cloud projects Hammr and ProActive. Moreover, several EC-funded collaborative projects like AppHub, DICE, MODAclouds and PaaSage will present their results, along with French state-funded projects OpenCloudware and CompatibleOne.

OW2 will in addition coordinate two panels:

- Day 1, March 11: Is open source cloud ready? Invited speakers include OpenStack, OpenNebula and OW2 and their partners.
- Day 2, March 12: Interoperability on the cloud: myth or reality? Invited speakers include Microsoft, OpenStack and Flexiant.

We have put together a tremendous program of technical presentations for the Open Cloud Park," says OW2 CEO Cedric Thomas, "they demonstrate the leading role open source software plays in pushing forward cloud technologies." he adds.

The detailed program of the Open Cloud Park can be seen at:
