

Press release FOR IMMEDIATE RELEASE

OW2 Consortium, this year again, a major attraction at Solutions Linux 2010

*Eight of its members exhibiting, the OW2 Village and a special one-day dedicated conference track
"Optimize your enterprise infrastructure with innovative solutions from OW2 Consortium"*

Paris, France, March 16, 2010 – This year again the OW2 Consortium will be a major attraction at Solutions Linux with eight of its members exhibiting, a OW2 Village and a special one-day dedicated conference track showcasing OW2 projects and success stories.

OW2 on the exhibition floor

Eight of OW2 members on the exhibition floor including, BULL, BonitaSoft, Engineering, INRIA, Jaspersoft, PetalsLink, Talend, and XWiki, will present demonstrations of their latest open source technologies.

For instance on the OW2 Village, "Engineering Group presents some hot news at the OW2 Village: the new modules SpagoBI Studio and Meta as well as SpagoBI Server improvements including the GIS engine and the opportunity to manage free notes and business metadata; the new Spagic 3 platform offering the OSGi Universal Middleware that supports the modular development of SOA/BPM solutions, in compliance with the OSGi 4.2 specifications, and finally Spago4Q latest improvements concerning more extractors from development tools and new dashboards to display the KPIs and SLAs", said Gabriele Ruffatti, Engineering Technical Director.

Gaël Blondelle, CTO and co-founder of PetalsLink, the open source SOA solutions editor, comments: "We offer new solutions, even more fitted to the needs of SOA projects, such as those that Veolia, the Defense Ministry or the City of Lyon started on. Petals ESB, Petals Studio, Petals View and Petals Master altogether build up a full-fledged solution to set up and manage an SOA infrastructure".

Make sure you join us at our Wine and Cheese Apéro" party on the OW2 Village, Wednesday 17, 6pm.

The OW2 conference

On Thursday, March 18, in the framework of Solutions Linux 2010, a special one-day conference track will be dedicated to OW2 Technologies. With the title "*Optimize your enterprise infrastructure with innovative solutions from OW2 Consortium*", this session will showcase the Consortium's innovative open source solutions for collaborative technologies, identity management, cloud computing deployment and administration tools, virtualization, mobility and many more. Consortium members' success stories of their partnerships in meeting client-driven requirements will also be on show.

The OW2 Conference will take place on March 18, from 9:30am to 4:30pm, in the Ruby Room. The OW2 Village will be located on booth C 23.

About OW2:

Founded in January 2007, OW2 is an independent industry community dedicated to developing open source code infrastructure (middleware and generic applications) and to fostering a vibrant community and business ecosystem. The OW2 Consortium hosts some one hundred technology projects, including Acceleo, ASM, Bonita, eXo Platform, Funambol, JOnAS, Lombos, Orbeon Forms, PetALS, SpagoBI and XWiki. Visit www.ow2.org

OW2 at Solutions Linux press release
Complementary information

Detailed programme of the OW2 Conference

- OW2 Strategy: the next three years.

Part 1: Technological cooperations and customers case: Success stories of OW2 Partnerships.

- The power of integration in Open Source Business Intelligence: how to leverage best of breeds OW2 projects to provide innovation and value for Enterprises.
- Autonomic management of PaaS cloud infrastructure with JASMINe: status and perspectives.
- Include Data Integration in your ESB with Talend and Petals.
- Best of breeds Worklow and document management with Bonita BPM Solution and eXo DMS.
- Outils d'audit & diagnostic pour application Java EE
- The collaborative development: OW2 and Trustie in China.

Part 2: Innovative technologies for the enterprise infrastructure.

- Accelerating Java applications for Clouds with OW2 ProActive Parallel Suite.
- Location Intelligence: when Business Intelligence meets Cartography.
- LemonLDAP::NG project and SAML2 integration.
- XWiki, the eXtended wiki: applications, plugins and extensions
- Rapid Uptake in Global Automotive B2Bi – The ACCORD Project & Roadmap.

About Solutions Linux

Now existing for more than 10 years, Solutions Linux is the major open source tradeshow in Europe. It gathers around the Linux oriented businesses and free software professionals in Europe.

220 exhibitors and partners benefited from a record attendance - 8548 visitors - and a 12,5% growth. The event is boasting an already flourishing french linux market : 51% in 2008. Indeed, analysts forecast a steady 38% growth in 2009 followed by a 32% growth in 2010
