Qi ZHANG	China
Dunxi SUN	China
Haibo WANG	China
Bian XU	China
Shu Qiang LI	China

## Competition Purposes

The competition is sponsored for Chinese students and technicians to improve the ability to study and manage OW2 middleware, and it can also provide an opportunity and a stage to express your own talent in computer programming. What's more, it is a competition that exhibits the demeanor of college students in science and technology and enhance the cooperation and intercommunication of own college student with one another. The competition advocates the time spirit of "freedom, share and creation". This competition campaign is conducted by the technicians from France and China, and the main target of the competition is to improve the communication and cooperation between two countries.
