Draft of Business Intelligence presentation at next OW2 Annual Conference		SS	20 NOV 2010
Highlights	<p>Meeting objectives The goal of the phone-call meeting is:</p> <ul style="list-style-type: none"> • Discussing the success metrics • Propose participation to the Initiative Blog • Discussing presentation and demo at next OW2 Annual Conference <p>Discussing the success metrics</p> <ul style="list-style-type: none"> ❖ SS illustrates the metrics proposed in a brainstorming with INRIA ❖ GT comments about adding some typical metrics as number of hits, number of login, number of downloads. ❖ SS will distributed the current available data about downloads and will check what other information can be collected from the OW2 site hosting the BI Initiative demos and appliances <p>BI Initiative Blog</p> <ul style="list-style-type: none"> ❖ Everyone is aware of the BI Initiative blog ❖ GT suggests about introducing policies to drive the blog posting ❖ SS comments about categories being the first policy implemented in the blog; current categories are: “What’s unique in OW2 OS BI”, “Hot topics in OS BI”. Anyone is free to contribute to this categories or to add categories ❖ The participants commit themselves to post one message each 2 weeks <p>BI Initiative at next OW2 Annual Conference</p> <ul style="list-style-type: none"> ❖ A specific session on OW2 BI has been scheduled at next OW2 Annual Conference on November, 25th. During this session there will be a speech on the OW2 BI Initiative by Stefano Scamuzzo and Cedric Carbone, and a speech on JasperSoft by Theodor Danciu ❖ The speech about BI Initiative will illustrate the new shape of the Initiative and a demo showing integration between Talend, Ingres, Jasper and SpagoBI. Talend is working on the demo ❖ Talend will shortly send a description of the demo and the state of the art of its development, Engineering and JasperSoft are open to contribution to the demo ❖ The scenario presented by Artemis is quite interesting and will be kept for next conference and events ❖ The same for the scenario on public data proposed by Altic <p>Next steps</p> <ul style="list-style-type: none"> ❖ SS commits to post a message on the blog within November, 10th ❖ PP will send the demo scenario to get comments and contributions for collaboration <p>Points not discussed in the conf call</p> <ul style="list-style-type: none"> ❖ Use UShareSoft as the tool to produce the appliances
