

# ObjectWeb - College - v2 - TCMinutes061123

[Minutes of 06/11/23](#)

*Please comment and update if needed before validation.*

Attendees :

- Gaelle Blondelle
- Christophe Ney
- Pierre Yves Gibello
- Francois Letellier
- Jacques Cayuela
- Xavier Moghrabi

## **WIKI**

The wiki is available for Technology Council discussions. [college.objectweb.org](http://college.objectweb.org)

Jacques Cayuela will put two pictures on the Wiki. A proposal for graphical mapping of projects and the JOnAS World SOA architecture.

## **IP Audit**

Objectives : -License -Copyright holder -Identify external projects used -Sources availability

First exercise to be done on Lombos. Objective : file generated by a tool or script before sending mail to project leaders. We identify the libraries used. For project like Eclipse or Apache we do not check the source availability. To be done for SourceForge. Jacques Cayuela call Gael Blondelle to start the activity.

## **Platform Migration**

- Mail sent by Xavier identifying problems with Mandriva, Gforge migration
- Help needed from Thales that will make the hosting
- Xavier Moghrabi : Risk with Gforge (no free Gforge 5 version identified)
- Need for a lighter and better bug tracker : Trac, Codex, Mantis possible candidate.
- Gforge is a very big tool used for few capabilities (mainly portal and bug tracker).
- Why not eXo platform as a portal and CMS

Xavier will open the discussion on the [wiki](#).

## **Technology Council Charter**

This activity must be launched. First draft by Francois Letellier. Look at Projects Life Cycle as a starting basis.

Next audio 30th november 2006 10AM Bridge to be confirmed
