

OW2 Quick Introduction

The Open Source Community for Infrastructure Software

March. 2017

```
OW2-LAPTOP3:~ cedricthomas$
```

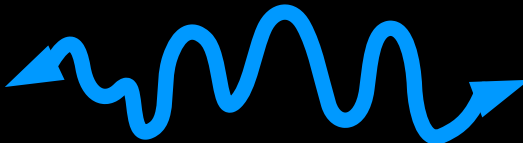

0> The freedom to run the software for any purpose

1> The freedom to study how the software works and to adapt it to your needs

2> The freedom to redistribute copies of the software

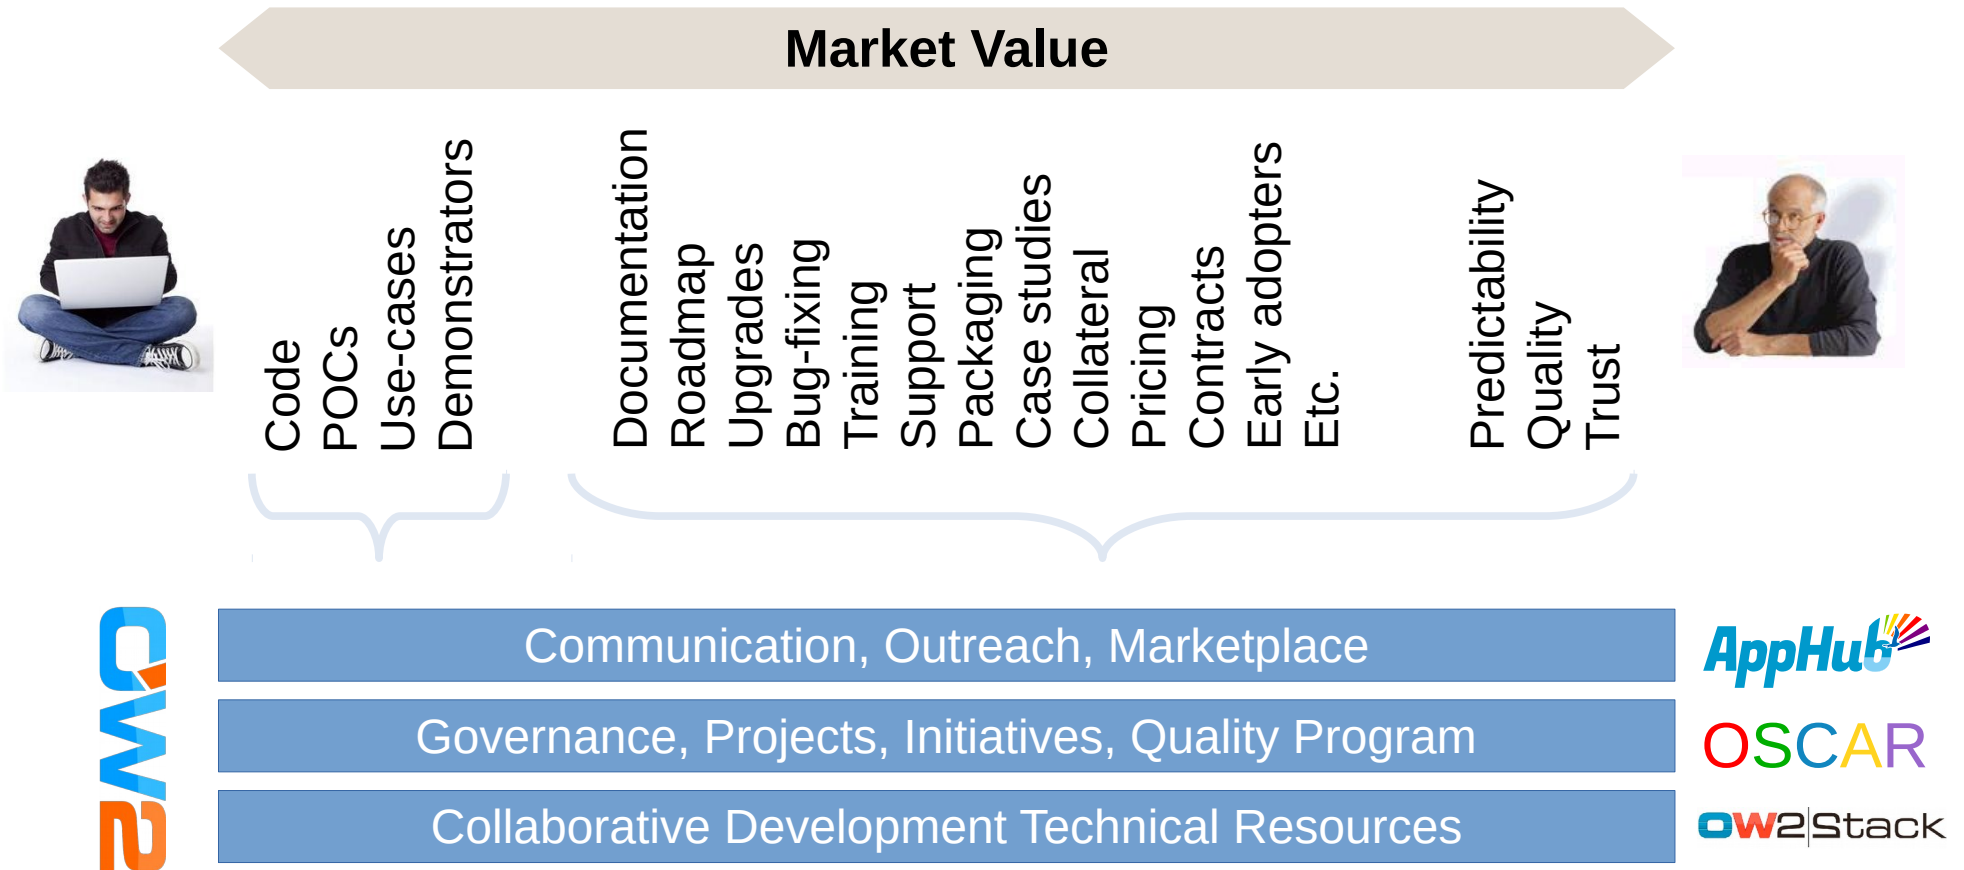

3> The freedom to improve the software and distribute your improvements to the public █

DocDokuPLM

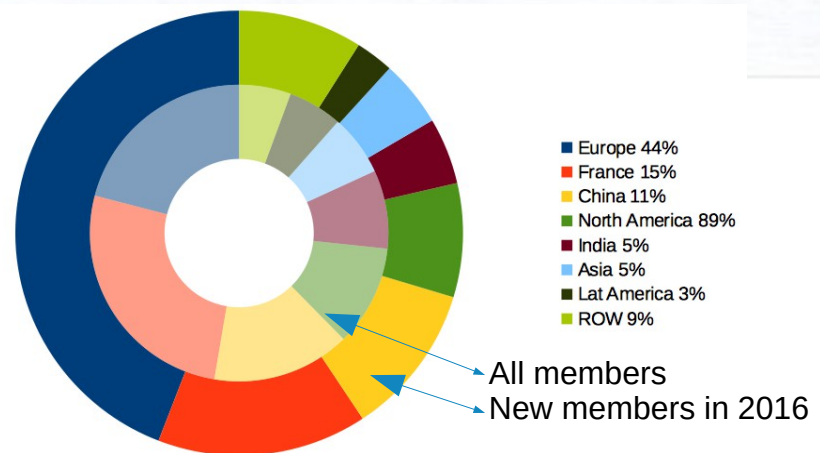

▶ ±100 projects (25 mature, 35 incubation, 40 archive)

▶ 5 multi-participant initiatives

A Global Community

- ▶ 40 legal entity members
- ▶ 2200 individual members
- ▶ 6 associates organizations
- ▶ ±20 events per year, 3 continents

OW2 Initiatives

- At OW2, initiatives are joint efforts by its members that aim to foster use of OW2 technologies by mainstream systems integrators, end-users and software vendors
- Within an Initiative, OW2 members work together to develop technical integration between projects as well as synergies to address specific market needs

- ▶ Big Data initiative
- ▶ Open Source Cloudware initiative
- ▶ Privacy and Security initiative
- ▶ Future Internet Software and Services initiative
- ▶ Open Source Accessibility initiative
- ▶ OSS in Big Cities initiative

IT Infrastructure

▶OW2 offers technical resources to OW2 projects and initiatives.

- ▶24/7 admin
- ▶Development tools
- ▶Code management
- ▶Web sites
- ▶Collaboration tools
- ▶Quality checking tools
- ▶SSO in progress

2010-2016 Positioning Phase

- ▶ Infrastructure Software positioning
- ▶ OSS-oriented quality program
- ▶ AppStore for easy deployment

2017-2020

The OW2 process

▶ The OW2 process creates value for open source projects.

- ▶ Helping development teams
- ▶ Ensuring open source citizenship
- ▶ Helping make informed decisions
- ▶ Making software accessible

OW2 Marketplace

The screenshot shows the OW2 Marketplace website. At the top left is the OW2 10 years logo. To the right is a 'Log-in' link. Below the logo is a navigation menu with 'ABOUT', 'PROJECTS', 'MEMBERS', and 'NEWS'. A search bar is located to the right of the menu. The main content area features the breadcrumb 'OW2 Project Marketplace / ProActive Workflows & Scheduling' and the title 'ProActive Workflows & Scheduling'. Below the title is a navigation bar with tabs: 'Overview', 'Quality Assessment Tools', 'Quality Drivers', 'Market Readiness', and 'Deployment'. The 'Overview' tab is selected. The main text describes ProActive Workflows & Scheduling as an open source middleware for parallel, distributed, and multi-core computing. It lists features like easy distribution, activity monitoring, and resource management. The ProActive Workflows & Scheduling logo is displayed. Below the text, there is a 'Web site' link to <http://proactive.activeeon.com/> and a 'News' section with a link to a 2017 article about its use in a major project.

The marketplace facilitates the deployment and helps make informed decision.
