

THE VISION

Software is not just about lines of code. It's about people. Those who do the writing. Those who do the integration. Those who do the training. Those who do the maintenance. Those who run it.

Leveraging open source to foster collaborative innovation is a powerful strategy. Sharing expertise, sharing experience, sharing opportunities create value.

Open source projects are collaborative by nature; they require neutral environments where contributors can work together independently of private interests.

THE MISSION

OW2's mission is to grow a global community working together to develop open source infrastructure software and foster a vibrant business ecosystem.

2017 marks OW2's 10th anniversary

- ✓ **2200** individual members
- ✓ **35** corporate members
- ✓ **60** open source projects
- ✓ **6** open market initiatives
- ✓ **160** exhibitions and conferences
- ✓ **1000** open source presentations

**The Open Source Community
for Infrastructure Software**

WHAT IS OW2?

Code base. OW2 hosts some sixty open source projects spanning enterprise solutions and components, application frameworks, engineering tools and libraries.

Community. OW2 federates IT vendors and users, universities and research centers from Europe, Asia and the Americas representing thousands of IT professionals.

Activities. OW2 community members cooperate in technology-oriented projects, market-driven initiatives and European collaborative projects.

Governance. The Board of Directors defines the strategy, the Technology Council supervises the evolution of the code base and the Management Office runs the day-to-day operations.

OW2 runs a community

- Open Source Governance
- Project Life Cycle
- Quality and Market Readiness Program
- Privacy and Security initiative
- Open Source Accessibility initiative
- BI and Big Data initiative
- Open Source Cloudware initiative
- Future Internet initiative

OW2 provides resources

- Forge and Development Tools
- Download Platform
- Community-Building Platform
- Mailing Lists and Wikis
- Quality and IP Checking Tools
- Open Source Project Marketplace
- Ow2stack Cloud Testbed

OW2 builds awareness

- Collaterals and Events
- OW2 Annual Conference
- Open Cloud Forum by OW2
- Workshops and Roadshows
- Conference Tracks
- Exhibition Community Booths
- Web Sites and Social Networks
- Webinars and Tutorials

THE OW2 PROCESS

Creating value for open source projects

TECHNOLOGY

OW2 provides developers with state-of-the-art technical infrastructure.

COMMUNITY

Fostering transparent governance and best practices guarantees genuine open source projects.

QUALITY

OW2's innovative market-readiness assessment verifies project quality and sustainability.

DELIVERY

OW2's AppHub marketplace and outreach drive end-user access.

WHY JOIN OW2?

Benefits of Membership

Achieve more, better and faster by cooperating with your peers. Build your own business ecosystem based on trust and privileged relationships with fellow members. Expand your market through leveraging a global organization.

Project Support

OW2 provides community support and dissemination services to open source collaborative projects, whatever the size and complexity.

Participate and Network

Create your own valuable networking opportunities by taking part in OW2 meetings and events, contributing to the OW2 code base, participating in an initiative and helping to develop a local chapter.
