

Press release FOR IMMEDIATE RELEASE

OW2 Consortium Showcases Open Source Enterprise Solutions at LinuxTag 2009

First-time, all-day track delivered by members of the OW2 Consortium demonstrates the maturity of its open source solutions for the enterprise information system.

Berlin, Germany, June 24, 2009 – The OW2 Consortium is hosting the “Enterprise Development” track for the first time at LinuxTag, Europe’s leading conference and exhibition for Linux and open source software. The all-day track is set to demonstrate the maturity of open source software for enterprise information systems.

The track sports six tutorials providing conference attendees a unique opportunity to discover several of the most competitive projects of the OW2 code base, including: JOnAS (Application Server); Nova Bonita (BPM Solution); PetALS (SOA Platform); SpagoBI (Business Intelligence); eXo Platform (Portal); Talend (*DataIntegration*). Each one of these open source projects benefit from professional support provided by independent companies members of the OW2 Consortium.

The OW2 Enterprise track includes the following live demonstrations:

- **JOnAS**: an Open Source Unbreakable Java EE Server Platform
- **SpagoBI 2.0**: the new Business Intelligence Free Platform
- **eXo Platform**: Next gen Portals: how OpenSocial standard adds social to the mix
- Create and manage your SOA with **PEtALS** and **Dragon**
- **Talend**: Open Source is ready to handle enterprise data integration
- **Nova Bonita**: Open Source BPM Solution

“The OW2 Consortium, once again, demonstrates how end-users and systems integrators can build a fully open source IT infrastructure with the community’s free solutions.” says OW2 CEO, Cedric Thomas, *“We are grateful to our friends at LinuxTag who invited us,”* he adds.

With six members including: Altic, EBM Websourcing, eXo Platform, Talend, Tarent and XWiki, the OW2 community will be well represented on the exhibition floor at LinuxTag. Members of the OW2 Management Office will be available on Tarent’s booth.

LinuxTag is in Berlin, Germany, June 24-27. The OW2 track is scheduled Thursday, June 25, 10:00 to 17:30, room Europa II, upper floor of the conference center.

About OW2:

Founded in January 2007 OW2 is an independent industry community dedicated to developing open source code middleware and to fostering a vibrant community and business ecosystem. The OW2 Consortium hosts some one hundred technology Projects, including Acceleo, ASM, Bonita, eXo Platform, Funambol, JOnAS, Lombos, Orbeon Forms, SpagoBI and Xwiki. Visit www.ow2.org.
