

PRESS RELEASE FOR IMMEDIATE RELEASE

Prologue SA joins the OW2 Consortium

Prologue SA will contribute to OW2 Open Source Cloudware initiative.

Paris, September 12, 2011– Jaime GUEVARA, Prologue SA CEO, announced today that Prologue had joined the OW2 Consortium, the open source community for infrastructure software, as a Corporate Member.

Prologue SA, was a long-time friend of OW2, it is joining the Consortium kicking off with significant contributions to the CompatibleOne collaborative project.

CompatibleOne is a strategic collaborative R&D project. It aims at developing a standard platform that will address cloud computing interoperability concerns raised by end-users. It is a multi-partner project funded by the French government.

CompatibleOne develops code for the OW2 Open Source Cloudware initiative (OSCi). Prologue SA develops key module in the CompatibleOne project. These modules will be contributed to the OW2 code base. Prologue SA is becoming a leading participant in OSCi.

“We are excited to be joining the OW2 Consortium” says Georges SEBAN, the Chairman of Prologue, “It is the continuation of a strategic move, Prologue SA will leverage the OW2 open source business ecosystem to develop its cloud computing activities”.

“Prologue SA has a long-standing history of innovation” says OW2 CEO Cedric Thomas, “We are delighted to welcome them as a new member in our community and we look forward to their contribution to the OW2 Open Source Cloudware initiative.”

Jamie Marshall, Expertise Manager at Prologue SA, will lead the company's contribution to CompatibleOne and its role in OW2.

About OW2

Founded in January 2007, OW2 is an independent industry community dedicated to developing open source code infrastructure (middleware and generic applications) and to fostering a vibrant community and business ecosystem. The OW2 Consortium hosts some one hundred technology projects, including ASM, Bonita, eXo Platform, JOnAS, Orbeon Forms, PetALS, SpagoBI, Talend and XWiki. Visit www.ow2.org

About Prologue SA

With particular expertise in the market sector concerning virtualization of workstations and electronic business document processing and exchange, the Prologue group is a recognized actor in the field of technological innovation in particular relating to Cloud Computing. This market experience allows the company today to offer its B2B platform, for the exchange of electronic documents, as a service (SaaS Software as a Service) and its virtual workstations in the form of an IaaS (Infrastructure as a Service).

Present in France, Spain and the United States of America, the group comprises 230 employees and addresses nearly all sectors of business activities. The technologies of the group are used by prestigious companies not only across France but also at an international level and include: EDF, Société Générale, Orange, Vilmorin, Immobilière 3F, Midas, Telefonica, REALE Assurances, Toyota, l'Institut National des Statistiques (Espagne). The turnover of the group Prologue reached 13.7M€ by the 1st of September 2010.
