CEO presents the activity of the consortium since last board. Discussions and motions.

-- Management Office
- Increase of the involvement of Alexandre Lefebvre (France Telecom) as CTO.
- Discussion about temporarily hiring a Legal trainee. CEO to circulate a task list to board.

-- Finance and Admin
- Calling for fee payments is more a persistent and annoying item in the CEO todo list than a real time consumer. Usually in other associations, this task is performed by the association's treasurer.
- **Board motion**: A formal call for the treasurer position is issued: any volunteer among the board members is welcome
- CHOREOS European project was approved and OW2 will participate and receive funding for its involvement. Many thanks to PetalsLink that helped CEO for the project submission.
- OSA transition: completed.
- zAgile: new member recommended by Mike Moody, working on a kind of ESB for software development, they already have open sourced components
- TCK: concern about Oracle dramatically slowing down the scholarship agreements process.

-- Membership
- Individual members: the list will be cleaned. The board has difficulty to know what are the interests and needs of this community. A survey to be issued.
- Membership relationship: exchanges between members should be improved.

-- Activities
- **Projects**: Enhydra community which was never part of OW2 is to migrate to GoogleForge. The code will remain available “as it is” on the OW2 forge in a read-only SVN.
- **Open source cloudware Initiative**:
  - Initiative launched as planned.
  - The co-leaders, Bull, FT and INRIA, will organize a phone call open to all participants to present the initiative and discuss what can the members do in this initiative.
- **Board motion**: INRIA to act as substitute lead of the BI Initiative for one year and to monitor the progress and results of the initiative.
- **Board motion**: The Europe Local Chapter is put on hold until ready to be activated again and submitted to the board.

-- Councils
- **Board motion**: The fully executed Individual membership of the project leader is the minimum membership requirement for a project to be accepted in incubation. A fully executed Corporate or Strategic membership is required for a project to be moved to Mature status. Community projects based on individual members only will be handled on a case-by-case basis.

• Next boards:
  • July 8th
  • September 20th
  • November 23rd or 26th (along with OW2 Annual Conference)
