

Press release FOR IMMEDIATE RELEASE

OW2 announces three OW2con'22 Best Project Awards during the Open Cloud by OW2 conference in Paris, the face to face part of its annual conference.

Three OW2 open source projects are rewarded today for their outstanding results in Community, Technology and Market, and for their contributions to the open source community ecosystem.

Paris, France, June 29, 2022 – OW2, the community promoting open source software for information systems announces today during the Open Cloud by OW2, in parallel with the Paris Cloud Symposium, the winners of OW2con'22 Best Project Awards. These awards recognize OW2 projects for their outstanding contribution to three categories : community, technology, and market performance.

The winners of the OW2con'22 Best Project Awards are:

Technology : The 2022 OW2 Best Project **Technology Award** goes to **Telosys**. Telosys is a lightweight code generator, easy to use, designed to reduce developers workload and to bootstrap any kind of project. Telosys offers a simple and pragmatic approach for code generation. Telosys can be used to generate code for any type of language (Java, Python, PHP, JavaScript, C #, HTML, Scala, Go, etc.) with any type of framework (AngularJS, JPA, Spring MVC, etc). Telosys is the only code generator fully customizable. It allows to customize entities model, project configuration and all the templates used to generate the code. It can be used as a tactical tool to improve productivity and code quality, especially when it is used for project bootstrapping.

Community : The 2022 OW2 Best Project **Community Award** goes to the **PrestaShop** project. PrestaShop is today the leading ecommerce software in Europe and Latin America and recently joined OW2. PrestaShop received the Community Award as a result of its effort to adapt its processes and open its community to an highly international audience to be as inclusive as possible. All community members can interact with each other through the forum with 30 languages (17 main languages and 13 other languages) or the marketplace. The software is available in over 60 languages, selectable during installation. And it is of course possible to add languages afterwards and to have online stores in several languages in order to allow international development. The translation process is also highly collaborative with 3546 translators collaborating on Crowdin. The important number of contributors demonstrates the vibrancy of the project, its internationalization and PrestaShop's localization efforts.

Market : The 2022 OW2 Best Project **Market Award** goes to **GLPi**. GLPi is one of the most complete open source ITSM solution on the market. With more than 11 million users in 186 countries and an interface available in 47 languages. GLPi benefits from a strong user community, and provide high level of services expertise and customer focus. GLPi customers are represented by public institutions, retail, financial & bank industries, educational sector (schools and universities). Teclib, the company behing GPLi is developping an active and large partnership program, thus expanding its presence all around the world.

About OW2

OW2 is an independent community dedicated to promoting open source software for information systems and to fostering their business ecosystems. OW2 federates 50+ organizations and 2500+ IT professionals world wide. OW2 hosts 50+ technology Projects, including: ASM, AuthzForce, BlueMind, Centreon, CLIF, FusionDirectory, GLPI, JORAM, Knowage, LemonLDAP:NG, Lutece, OCS Inventory, PrestaShop, ProActive, Rocket.Chat, SAT4J, SeedStack, Sympa, Telosys, Waarp, WebLab and XWiki. Visit www.ow2.org, follow us on Twitter @ow2.
